

A wide-angle aerial photograph taken from the nacelle of a wind turbine. The view is framed by the large white blades of the turbine. In the foreground, a person wearing a yellow safety vest and helmet is lying on the white platform of the nacelle, holding a professional camera to take a photograph. Below, a vast industrial complex is visible, featuring numerous large white buildings, several railway tracks with some trains, and a complex network of roads and highways. The sky is overcast with heavy clouds.
